

Travel-Cot User Guide

New !

ENG ----

WARNING

- **OPEN WITH CARE.** When removing Travel-cot from storage bag, take caution as it automatically unfolds rapidly when safety band is removed.
- Only use Travel-Cot for purpose of which it was intended.
- Travel-Cot is not a toy. Never leave a child unattended.
- Travel-Cot does not offer complete sun protection. Fabric protects against 50% of UV rays.

Important Information

Follow these instructions carefully and keep them for future reference.

Travel-cot is designed for infants from birth to approximated +/- 1,5 years (Travel-Cot peuter +/- 4 years) However, since each child develops differently, these age parameters should be monitored against your child's own development.

Maintenance

- Travel-Cot can be surface cleaned using warm soapy water or a damp cloth.
Air dry.
- Sleeping pad can be machine washed in cold water. Air dry.

Operation

1. Upon removing safety band, Travel-Cot will automatically unfold and pop into full configuration. Once deployed, self inflatable mattress can be filled and inserted into pocket.
2. To Inflate Mattress- Once unfolded, open the valve to inflate itself the mattress. Add air as needed to inflate mattress fully. Close valve before use.
Do not use a different or extra mattress, which may create hazardous gaps or

change the height and dimensions of our TRAVEL-COT.

This mattress is also suitable as a separate camping pad.

3. Once deployed, the self inflatable mattress has to be filled and inserted only into the specified and separated pocket in Travel-Cot floor and close pocket with zipper.
4. Place sleeping pad inside.
5. Travel-Cot side zipper panels can be rolled and secured in an open position using the rope and eye clasps provided. To leave main zipper panel open, simply flip unzipped panel up and over top of Travel-Cot.

Folding

- Fold Travel-Cot on solid, flat surface, preferably the floor.
 - After each use, deflate mattress, fold and store in bag along with Travel-Cot, sleeping pad.
 - Don't be afraid to really push on the frame, it won't break.
 - After many folds, Travel-Cot might lose some of its shape. Reshaping the frame might be necessary from time to time.
1. Remove all items from inside, close all zippers. Keep the tent stand flatly.
 2. Grasp top frame in middle on both sides.
 3. Bring up bottom frame to the top and hold all frame together in the middle.
 4. Keep the folded tent to be upright, one hand grasp the middle part and another hand push the top down to bottom.
 5. Pushing the down top inside continuously until 3 circles occurs.
 6. The down and inside part is grasped by one hand, gathered middle part is still grasped by another hand but in a little loose position to let the upside 2 circles cross.
 7. Crossing the upside 2 circles more and make one circle cover on another circle.
 8. Keep 3 circles cover one by one completely, then fasten the loop and put into carry bag.
